### DESCRIPTION OF SERVICES

Meals at Home Program (MAHP) operates through each of the five Senior Nutrition Project sites located throughout the county. With the exception of Phillipsburg MAHP, the objective of the program is to provide a hot, nutritious, well-balanced, home delivered, NON-prescription meal to residents of Warren County who are homebound, unable to shop or prepare meals, under a doctor's order, or have no at-home support and are at least 60 years of age. Division of Senior Services professional staff will assess each applicant to the project for appropriateness and for eligibility for subsidies for the MAHP and for other in-home services. Meals are delivered around the noontime hour on Monday through Friday. In special circumstances, prepackaged frozen meals can be delivered for weekend meals.
